### The Aviation Consumer's Used Aircraft Guide by Andrew ...

The raw performance numbers of a Meyers 200 might resemble what you'd expect from the most modern single-engine piston speedster, even though the airplane is a product of the 1950s, and went out of production in the 1960s. But don't turn a nose to these old gals because of their age. We're talking cruise speeds [...]

Avgas (aviation gasoline, also known as aviation spirit in the UK) is an aviation fuel used in aircraft with spark-ignited internal combustion engines. Avgas is distinguished from conventional gasoline (petrol) used in motor vehicles, which is termed mogas (motor gasoline) in an aviation context. Unlike motor gasoline, which has been formulated since the 1970s to allow the use of platinum ...
