Within and outside the legal and academic professions, it is now increasingly recognised that the human rights consequences of states' actions are not limited to the domestic sphere but quite often transcend national borders. This is a challenge to the human rights community, which up to the present time has focused almost exclusively on human rights violations and protections solely within a national setting.

and not beyond national borders? Surely not! All state actions should be bound to human rights. Our general human rights understanding is such that human rights shall be at the centre of all states' actions, regardless of whether the effects produced are inside or outside their own territory. The legal situation is not as clear.

Beyond the Border The right to determine who enters its territory has always been seen as a test of a state's sovereignty, but the physical boundaries have often been vague, says Matt Carr. Matt Carr | Published in History Today Volume 63 Issue 1 January 2013

## **Beyond the Border | History Today**

Without border control, there would be mass immigration, which would lead to major job losses and economic instability, as well as excessive burdens on the state's infrastructure and public services. In other words, without border control, there would be chaos.
