d) the increased and increasing speed of the development of productive forces under monopolistic control also pushed the advanced capitalist countries toward the political control of foreign lands. The search for control over raw materials is yet another reason why capitalism in its monopolistic stage becomes expansionist.

## **Dependent Capitalist Development in Latin America**

Moreover, under "the whip of external necessity," Europe was forced to compete geopolitically with their more advanced rivals, a dynamic that provided the condition for the development of capitalism in Holland and England.

## **The uneven and combined development of world capitalism ...**

Developmental state, or hard state, is a term used by international political economy scholars to refer to the phenomenon of state-led macroeconomic planning in East Asia in the late 20th century. In this model of capitalism (sometimes referred to as state development capitalism), the state has more independent, or autonomous, political power, as well as more control over the economy.
