Automatic PA68301 Updated Valve Body Lead Frame Support

Identification It is difficult to identify a 6R60 from a 6R75 or 6R80 without disassembling the valve body because all three look identical from the outside. To correctly identify the transmission/valve body type that you require, look on the Vehicle Certification Label, located on the driver's door. Find the code letter/number under the "TR".

Sonnax Remanufactured Valve Body - FZR80

At the same time the D2 passage was eliminated, some not-so-obvious changes took place to the valve body. In the earlier 6R60/75/80 hydraulic system without the one-way clutch, the manual valve can be in any position to apply the low/reverse D clutch (figure 5). The pump supplies line pressure to the D1 and D2 regulator and latch valves.
