Purchasing a sewing machine is an investment. Whether you're a beginner or expert, sewing requires dedication, hard work and patience. However, while sewing machines are intended to last for years, that doesn't mean the sewing machine parts won't break down. Just like a car, we place a lot of stress on our sewing machine, using it day in and day out.

That's why new industrial sewing machine parts must be bought with a margin. Without such trifles as regulators, tension screw-nuts, shuttle mechanisms, bobbin cases, mounting brackets, needle plates, knives sets for overlocks, there won't be correct threads fixation, as well as the ability to perform various operating options.
