LibGen is a unique concept in the  
category of eBooks, as this Russia based  
website is actually a search engine that  
helps you download books and articles  
related to science. It allows you to  
download paywalled content for free  
including PDF downloads for the stuff on  
Elsevier's Science Direct website. Even  
though the site continues to face legal  
issues due to the pirated access  
provided to books and articles, the site  
is still functional through various  
domains.
