5. Be sure that you let all of your experiments run for at least 5 minutes. It is preferable to run them until all prey have been consumed, but this may not always be possible. Remember the units of your dependent variable. 6. Once you have conducted an experiment with a predator, or predators, place them in the "USED" aquarium.

For every student, we recommend you
to visit <https://circuits-lab.eng.fiu.edu/>
to look for the laboratory experiments. We
recommend you to bring your laptop to
the laboratory. The list of parts was also
on the website to let you know what you
need to purchase for the lab. We
recommend that you get your parts on
time.
