Following the 1983 World Commission on Environment and Development (WCED), chaired by Gro Harlem Brundtland, a 1987 report named ' Our Common Future ' was published, defining Sustainable Development as: ' development that meets the needs of the present without compromising the ability of future generations to meet their own needs'. The report highlighted three fundamental components to sustainable development: environmental protection, economic growth and social equity.

The Brundtland Report 'Our Common Future'
Rather than presenting a gloom and doom report about the destruction of natural resources, Our Common Future offers an agenda advocating the growth of economies based on policies that do not harm, and can even enhance, the environment.

Amazon.com: Our Common Future (Oxford Paperbacks ...
Our Common Future is a 400 page long report from the World Commission on Environment and Development voicing the deep concern over both the speed and irreversibility with which the planet's environmental resources are being squandered. The Commission's main task was to come up with a global agenda for change.

Our report, Our Common Future, is not a prediction of ever increasing environmental decay, poverty, and hardship in an ever more polluted world among ever decreasing resources. We see instead the possibility for a new era of economic growth, one that must be based on policies that sustain and expand the environmental resource base.

Our Common Future: From One Earth to One World - A/42/427 ...
The publication of this report marks the 65th anniversary of Brown v. Board of Education, the landmark U.S. Supreme Court case declaring racial segregation in public schools unconstitutional. There have been many changes since the ruling, but intense levels of segregation—which had decreased markedly after 1954 for black students—are on the rise once again.

But, it was only with the publication of Our Common Future (WCED, 1987) that sustainability, coupled to the notion of development, become known as sustainable development. The Brundtland Report identifies a much broader spectrum of issues to be covered by sustainable development, including political, social, economic, and cultural issues.
