The most common symptoms of asthma are shortness of breath (see ATS Series on Breathlessness at http://patients.thoracic.org/information-series/en/resources/ATS\_Patient\_Ed\_Breathlessness.pdf), wheezing, chest tightness, and cough. You may have days when you have every symptom and other days you may have no symptoms.

### What Is Asthma?

New cases of asthma are on the rise in adults, too. Nationwide, death rates due to asthma, though still low, are increasing. In 1996, almost 5,000 Americans died from asthma, a 44 percent rise since 1983. Medical costs in the US alone increased more than \$2 billion from 1985 to 1990 and continue to rise.
